

# Habbo Big Brother

Habbo Big Brother is an online emulation of the reality television show "Big Brother" inside Habbo Hotel UK, a virtual game for youths. The series was launched on 17 July 2008, and is due to run for 2 weeks until August 1st 2008. Auditions were held virtually in the game from 21-25 June 2008. The show, presented by Sulake Staff, is on during various days of the week, with live highlights being streamed into the hotel twenty-four hours a day.

The show is moderated permanently by in-game Habbo Moderators, to ensure the Habbo Way is abided to at all times.

## House

The House is split into three unchanged public rooms under the title Habbo Big Brother - Series 1. Only Housemates and Habbo Staff can access the rooms in the house, whilst Habbo Live is enabled (a television screen of the room, to simulate watching via television). A number of ex-Hobbas (volunteer guides) who have access to the rooms have been spotted in the house on numerous occasions.

## Lounge/Task

The Lounge/Task room, usually known as the Skylight Lobby is the rooms where tasks and general House activities are held. Discussions and games are held in this room. All speech in the room is able to be seen by Habbo viewers on Habbo Live.

## Launch/Eviction

Outside Space, the Sun Terrace was transformed into the Launch/Eviction room. The room is where every eviction takes place. The room was also host to the launch, where all 21 housemates entered the house on Day 1.

## Diary Room

Public room, The Den is now home to Big Brother's Diary Room. The Diary Room is where the the housemates can share their thoughts about the competition and other housemates to Habbo Big Brother, similar to the television series.

## Big Brother

The account HBB2008 is the official Habbo Big Brother account, operated by the two Site Producers. However, the Habbo Staff strive that his identity is a secret. During the second eviction, Big Brother Changed his account name to HBigBrother2008, baring a paper bag over his head, instead of his usual balaclava, claiming he had become a victim of sunburn.

## Tasks

### Day 6: Name Game

Housemates were instructed to pair up and were given a topic by Big Brother. The pair in turn had to give a word in relation to the topic (for example, if the topic was fruit: orange, lemon, lime, cherry etc.) until one gave up or said a word not related to the topic. Larry15 won the task, winning immunity from that week's public vote for eviction.

### Day 7: Lucky Draw

The planned task did not go ahead due to technical problems, however all housemates present at the time were entered into a draw. Number 17 was picked, therefore making Alexis17 safe with Larry15 for Friday's eviction.

### Day 8: Egg and Spoon (Eviction Task)

Housemates were divided into heats. Each housemates in the heat had to line up on the start line and get to the finish line following these instructions: Forward 1 Step, "Pogo Mogo" dance, 1 Step Forward, Wave, Repeat. Conway10 and Tsara12 competed in the final, with Conway10 taking victory, along with immunity from the week's eviction. Ellee14 was evicted due to her lack of presence at the task.

### Day 12: Golden Ticket Task

Big Brother revealed that one housemate was secretly Habbo UK's new Co-Hotel Manager (Site Producer) with Hotel Manager, Lost\_Witness, and that Conway10 (the Golden Ticket holder) would have to guess who it was to secure himself a place in the final. If he guessed incorrectly the person he wrongly accused would take the place in the final instead. He was allowed to ask each contestant (in the house at the time) three questions, which were: "Do you live in London?" (where the Habbo UK Office is based), "What is your Habbo registration date?" and "Have you been a Hobba?".

Conway10 eventually guessed Larry15 was the member of Habbo Staff, but he was wrong, with Habbo Big Brother announcing that contestant Bucho6 was in fact an employed member of Sulake staff. Bucho6 was then taken out of the house, to start his role as joint-Hotel Manager. Larry15, meanwhile, earned himself a place in the final.

### Day 13: Celebrity Task (Eviction Task)

The task was originally planned for Day 7 but did not go ahead due to technical difficulties. The rules involved a Habbo competition called a "Cozzie Change". Each housemate had to choose a celebrity to dress up as. In turn they were called

up to Lost\_Witness (Hotel Manager) to whisper to him there chosen celeb. Each housemate had to guess the celeb at the front. The housemate at the front got a point for every correct guess and a correct guess also won the housemate a point. Dixi19 was ejected/evicted after the task for inactivity.

1. Kenzzo3: 7
2. Conway10: 6\*
3. Aaron20: 6\*
4. Melvin11: 5
- = Alexis17: 5
6. Tsara12: 4

Conway10 was put ahead of Aaron20 as Aaron20 had less guesses correct. Kenzzo3 won, securing him a place in the final.

#### Day 14: SkyLobby Come Dancing

This task was similar to the Egg and spoon task on Day 8. It was a race from the start to the finish line however it had to be done in this way. Housemates were in pairs and had to dance to the finish line.

1. Housemates in the pair could not be more than 1 square apart.
2. They both had to do different dances at any 1 point.
3. They had to change the style of dance everytime they went round their partner.

In the final it was Aaron20 & Jeradeen1 VS Alexis17 & Tsara12. Aaron20 and Jeradeen1 took a very close win to take their place in the final.

#### Housemates

Each housemate has been given a short profile, announced via the Habbo website. All the housemates are existing players, who have been awarded new accounts, to hide their identity. However, they may not reveal who they are until the competition is over.

#### Aydan4

Simone18 was evicted.

Dixi19

Dixi19 was ejected due to lack of appearance during tasks.

Aaron20

He's Flamboyant and will provide much needed energy to the House. No he doesn't work for EDF Energy, he is just a lively piano playing comedian. Worried about his 'odd humour', will he have you laughing?
